SINGULAR DETAILS

Transparent polycarbonate cover.

Colour 3.5" TFT screen

Audio output.

Multi-function pushbuttons.

HANDS-FREE OPERATION

Maximum simplicity and convenience.

When a call is received from the video door entry panel, the image comes up automatically.

Press  once to speak and hold a conversation with the visitor with no need of a handset. Press  to open the door. Communication ends after 90 seconds or when  is pressed again.

Includes activation of 2 additional functions for volume control and brightness-contrast-colour settings as standard.

ACCESSORIES

Decorative frame made in bevelled glass acts as aesthetic complement and lets you cover gaps left by other equipment.
