

smile

Smile is the new video door entry experience.

Cool and elegant. With a design which allows it's perfect integration in any surroundings.

An advanced management monitor, with hands-free communication, high performance features and intuitive.

Smile comes in two different formats: with 7" or 3,5" TFT colour screen, both of them can be surface or flush-mounted.

It offers advanced functions as standard: different melodies, do not disturb function, panic call and lift control among others.

It's the simplification of the most universal and at the same most complex monitor from Fermax.

It's Smile.

FERMAX

Extensions

• **At home:**
A 2nd monitor (3,5" Smile model ref.6545 or 7" Smile model ref.6550), without extra power supply.

• **At the accesses:**
A 2nd access (1/W CITY video panel ref.48505 or 2/W CITY video panel ref.48515). Video switcher ref.2450 is required.

smile KITS :

calling for a new generation

Smile, because FERMAX is presenting its new digital video door entry Smile kits for single family homes, offices and businesses.

These Kits include the new surface Smile monitor available for 1 and 2 ways. Two Smile monitor formats, 7" TFT screen or 3,5" TFT screen, allowing you to choose the one which suits your needs best.

The Smile kits include all the necessary materials for a complete installation: Cityline panel, a safe choice, resulting from combining a classic aesthetic, robustness and reliability; the Smile monitor and power supply.
